

# Get Involved with Career Planning

[www.kuder.com](http://www.kuder.com)

**78%** of students say that one or both parents are primarily responsible for helping plan for a career.

**Your child has started planning for education and career success with the Internet-based Kuder Career Planning System!**

## **Learn About the Kuder Career Planning System!**

- ▶ Allows access from any Internet connection location, 24 hours a day (at home, public library, etc)
- ▶ Relates the results of brief interests, skills, and work values assessments to occupational information
- ▶ Provides lifelong access to an online career portfolio where students can search and compare college and career options, create a four-year education plan, find available scholarships and financial aid information, and build professional resumés
- ▶ Helps your child select courses, college majors, and occupations based on assessment results

## **Get Involved!**

- ▶ Encourage your child to show you their assessment reports on the Internet and review the results together
- ▶ Help them build their online career portfolio; highlighting their skills, awards, and honors
- ▶ Talk about your own career, past jobs, and future goals
- ▶ Discuss the strengths your child sees in her/his own work
- ▶ Encourage your child to get involved in extracurricular activities offered by the school

*To learn more about your child's involvement with the Kuder Career Planning System, contact the school's administration or counseling staff.*
